

Our Man Of The Hour -

Coach Ed Miller

Every once in awhile, a man comes to a community and changes the image of that community so completely and drastically that it is never the same.

Such a man is Ed Miller

Five years ago, Ed came to Wheelersburg and became our high school football coach. Up to that time, the 'Burg had a mediocre football record. If we won more games than we lost, we felt fortunate.

Since 1972, the Wheelersburg Pirates Football Team, under Coach Ed Miller, has won 38 games and lost 2.

But Ed brought us more than a tradition of winning. He brought us a pride in ourselves...a pride that begets confidence, that makes it easier to win.

He made us forget we were losers...indeed, today, we find it hard to remember those days when we did lose.

Our attendance at all athletic events has doubled and tripled; our great new stadium has been built and the pulse tempo for all sports has increased as a direct result of Ed Miller.

We're proud that a man of Ed Miller's calibre and ability wants to make Wheelersburg his community and his home. We're proud he wants to raise his children here. And we're proud, not just because he has brought us a winning football team, but because he has taught us to have pride in ourselves and in our community. Yes, we're proud of Ed and of Wheelersburg...we have a right to be.

Although these are our thoughts, I know the people who feel exactly this way are legion. Everytime you see someone lift his head a little higher when he says, "I'm from Wheelersburg"...you know it.

Fred Adkins

If you missed the half time show last week you missed the performances of two of the area's greatest bands. Thanks, Jackson, for giving us a chance to see you and thanks, 'Burg Band, for being as usual, terr-i-fic!
